Career Objective

Final-year Computer Science undergraduate with hands-on experience in machine learning, computer vision, and full-stack web development. Seeking opportunities to apply technical knowledge, contribute to practical and accessible software solutions, and grow through collaborative, real-world projects.

Education

Saintgits College of Engineering

B.Tech in Computer Science and Engineering
CGPA: 7.9

Kottayam, Kerala

Expected Graduation: 2027

Mount Bethany Public School (CBSE)

12th Standard
10th Standard

Kumbazha, Kerala

Graduated: 2023 | Percentage: 80%

Graduated: 2021 | Percentage: 88%

Technical Skills

Languages: Python, C, JavaScript, SQL, HTML5, CSS3

Frameworks and Libraries: React, Flask, Node.js (Beginner), Express.js (Beginner), Scikit-learn, OpenCV, MediaPipe, Tailwind CSS, Bootstrap

Tools and Platforms: Git, GitHub, PostgreSQL, MySQL, Linux, VS Code, Streamlit, Vite

Core Competencies: Machine Learning, Computer Vision, Full-Stack Development, Problem Solving, Debugging, UI Design

Coding Practice: Completed 90+ LeetCode problems

Technical Projects

ASL Interpreter – Real-Time Sign Language Recognition System

Python | MediaPipe | OpenCV | Scikit-learn | SVM | Flask | React | Vite

- Developed an AI-powered system that recognizes American Sign Language hand gestures and converts them into text in real time.
- Used MediaPipe and OpenCV to detect and track hand landmarks from a webcam, then trained a Support Vector Machine classifier on a custom landmark dataset.
- Built a Flask prediction API with cross-origin support and a React interface that displays recognized alphabets and words instantly.

PlanIt – Institutional Event Management Platform

React | Tailwind CSS | Node.js | Express.js | PostgreSQL | Axios

- Developed a full-stack platform that automates event registration, attendance tracking, and certificate distribution for educational institutions.
- Implemented real-time seat-limit enforcement, digital attendance check-in, and automated certificate generation.
- Built a responsive participant dashboard with clear status tracking for registered, attended, and missed events.

EduVerse AI – Offline-First AI Learning Platform

React | Vite | Redux Toolkit | Node.js | Express.js | PWA | IndexedDB | Speech-to-Text APIs

- Developed an AI-powered educational platform for students in low-resource environments, with offline-first access and scalable multilingual support.
- Implemented voice input, captions, and accessibility-focused design, along with math-solving, career-guidance, and bite-sized learning modules.
- Designed a progressive web application architecture that remains functional without a stable internet connection.

RideInShade – Smart Bus Seat Recommendation System

Python | Streamlit | PVLlib | Geopy | NumPy | OpenStreetMap APIs

- Developed a location-aware application that recommends the shaded side of a bus using route orientation and real-time solar-position calculations.
- Integrated geographic coordinates, travel time, sun azimuth, and elevation to determine seating recommendations and reduce direct sun exposure.
- Built an interactive interface for source and destination input with real-time, coordinate-based seating guidance.

Experience

Machine Learning Intern	2 months
Jyesta	
AI and Cybersecurity Intern	2 months
Bharat Space Education and Research Centre	

Certifications

- Machine Learning – Jyesta (2026) | Python Certification – Qnayds (2025)
- JavaScript Bootcamp – LetsUpgrade (2025) | Data Analytics Job Simulation – Deloitte, Forage (2025)
- Software Engineering Job Simulation – Electronic Arts, Forage (2025)
- Machine Learning and Data Science – Industrus Tech (2024) | AI with Python – Qnayds (2024)

Achievements and Activities

- Participated in HashItUp, a 24-hour national hackathon, and other hackathons.
- Attended technical workshops to expand practical skills and industry knowledge.

Soft Skills and Languages

Soft Skills: Communication, Teamwork, Active Listening, Problem Solving, Adaptability
Languages: English, Malayalam, Hindi, Japanese (Intermediate)
